

Catering & Cafe

at

Dear PSI Parents, Students, and Staff,

I have great pleasure to present my catering company to you again. I am Tanya Berezhna already known by many of you as I have delivered food to the PSI Community for the past 2 years, and some of you know me as Tanya-caterer.

My Catering company was established in 2001, but I have been involved in restaurant business for the past 18 years, having developed my catering that covers a wide range of events - from simple coffee breaks and dinners to big celebration projects.

Two years of my work with PSI have passed. I would like to thank you for choosing my company again. To work with PSI is a pleasure for me and I am planning to improve the menu because now I understand your tastes and likes.

I'm going to add an international day and a pizza day on the menu. I hope it will be interesting for the children and staff.

The PSI cafeteria will be refreshed and renewed so that I hope it will appear nicer and more attractive for the customers. The working hours continue the same, starting at 8am through 4pm, in order to meet the requirements of the school community. The meal tickets will be sold during working hours.

I will be working in close cooperation with parents and school administration. You are welcome to forward your suggestions and requests for food or service.

As a mother of two children I pay much attention to ingredients and cooking technologies

Yours faithfully,

Tania Berezhna
